## NOVEMBER 2001 DESIGN ENGINEERING AND RELATED SERVICES SOLICITATION

---

### TRANSPORTATION DISTRICT 1

#### Scope of Service Narratives:

**D1 1A Open to all consultants – use Consultant Solicitation Open To All Firms NOI**

**Project ID: 2002-01-06**

**D1 2A**

**Project ID: 2002-01-07**

Two district wide wetland delineation master contracts

These two master contracts are for the field delineation of wetland boundaries for highway design and construction projects. The work includes all necessary services and equipment to verify, identify, delineate, and stake wetland boundaries in the field as outlined by **Technical Report Y-87-1, Corps of Engineers Wetlands Delineation Manual** published January 1987. The consultant will be required to coordinate with WisDOT project managers and survey unit specialists for contract timing and locating of wetland boundary stakes. The consultant will be required to notify property owners prior to beginning their work.

Proof of education, training, certification or other work experience in this field is required and will be provided by using the Consultant Solicitation Open to All Firms Notice of Interest, form DT1819.

For more information, contact Jim Merriman at 608.246.3848.

## NOVEMBER 2001 DESIGN ENGINEERING AND RELATED SERVICES SOLICITATION

---

### TRANSPORTATION DISTRICT 1

#### Scope of Service Narratives:

##### **D1 1C use Consultant Solicitation For Local Selection, NOI**

###### **Project ID: 5990-02-08**

East Memorial Drive Bridge & Approaches  
City of Janesville  
Local Street  
Rock County

###### **Project ID: 5990-03-05**

Sharon Road Bridge & Approaches  
City of Janesville  
Local Street  
Rock County

The City of Janesville has received funding in the Local Bridge Program to rehabilitate the deficient structure over USH 51 on East Memorial Drive and the deficient structure over Spring Brook on Sharon Road, pending approval of an independent study in accordance with TRANS 213. The City wants to select a consultant for the independent study and then, assuming approval, the design engineering services. Upon approval of the study and successful negotiations with the selected consultant, the City and the Department of Transportation will enter into a Three-Party Design Engineering Services contract with the consultant.

The selected consultant will provide all necessary reports; handle agency and utility coordination; and prepare construction plans and specifications for the rehabilitation of the existing structures. The rehabilitation is expected to consist of deck repair and a concrete overlay for both bridges and new railings for the Sharon Road bridge. Traffic control plans will also be required for East Memorial Drive.

The City of Janesville is looking for a consultant that has completed a similar project in the last three years, including coordination with all agencies involved in this project. The City may select three consultants to present their qualifications to the Consultant Selection Committee or the City may select a consultant based on the responses given in the CONSULTANT SOLICITATION FOR LOCAL SELECTION, NOI, DT1821.

Interested consultants should **not** prepare the Department's standard Notice of Interest form. Consultants should use the CONSULTANT SOLICITATION FOR LOCAL SELECTION, NOI, DT1821. A link to it can be found at <http://www.dot.state.wi.us/dbm/bfs/solicit.html> It includes the following questions:

- 1) Describe the services that your firm provides. This should include the location of the offices, stating which office would be providing the services on these projects, and should include a listing of the staff that provide services on bridge projects, with their educational background and professional registration.
- 2) Describe the staff that would be providing services on these projects. A flow chart can be helpful.
- 3) Describe your familiarity with Federal Highway Administration and Department of Transportation's procedures regarding public involvement, environmental documentation and analysis, utility coordination, and structure and roadway design.
- 4) List similar projects that the Project Engineer for these projects has completed within the last three years and similar projects done by the office working on these projects that have been completed within the last three years. Include the project engineer for each project and a client contact with a phone number.
- 5) Describe your project approach. This should include a schedule for completion of the services. Limit the answer to this question to two pages.

Direct questions to Robert Boldt, P.E., City of Janesville Director of Public Services/City Engineer, at 608.755.3161, or Kimberly Johnson, District 1 Local Program Management Consultant at 608.829.3858.

## NOVEMBER 2001 DESIGN ENGINEERING AND RELATED SERVICES SOLICITATION

### **D1 2C use Consultant Solicitation For Local Selection, NOI**

#### **Project I.D. 5990-00-21**

Delavan Drive, City of Janesville  
(Industrial Drive – Beloit Avenue)  
Local Street  
Rock County

The City of Janesville has received funding in the STP Urban Program to reconstruct Delavan Drive. The concrete pavement on this street is in poor condition and there need to be improvements for turning vehicles at the intersections. The City expects that the selected consultant will have to demonstrate a high level of experience and skills in public involvement, engineering analysis and urban design. The City wants to select a consultant for the design engineering services. Upon successful negotiations with the selected consultant, the City and the Department of Transportation will enter into a Three-Party Design Engineering Services contract with the consultant.

The City is looking for a consultant that has completed a similar project in the last three years, including coordination with all agencies involved in this project. The City may select three consultants to present their qualifications to the Consultant Selection Committee for this project or the City may select a consultant based on the responses given in the CONSULTANT SOLICITATION FOR LOCAL SELECTION, NOI, DT1821.

Interested consultants should **not** prepare the Department's standard Notice of Interest form. Consultants should use the CONSULTANT SOLICITATION FOR LOCAL SELECTION, NOI, DT1821. A link to it can be found at <http://www.dot.state.wi.us/dbm/bfs/solicit.html> It includes the following questions:

- 1) Describe the services that your firm provides. This should include the location of the offices, stating which office would be providing the services on this project, and should include a listing of the staff that provide services on transportation projects, with their educational background and professional registration.
- 2) Describe the staff that would be providing services on this project. This should also include the subconsultants that would be used. A flow chart can be helpful.
- 3) Describe your familiarity with Federal Highway Administration and Department of Transportation's procedures regarding public involvement, environmental documentation and analysis, utility coordination and right-of-way plat preparation, and roadway design.
- 4) List similar projects that the Project Engineer for this project has completed within the last three years and similar projects done by the office working on this project that have been completed within the last three years. Include the project engineer for each project and a client contact with a phone number.
- 5) Describe your project approach. Limit the answer to this question to two pages.

Direct questions to Robert Boldt, P.E., City of Janesville Director of Public Services/City Engineer, at 608.755.3161, or Kimberly Johnson, District 1 Local Program Management Consultant at 608.829.3858.

### TRANSPORTATION DISTRICT 3

#### Scope of Service Narratives:

##### D3 1B

##### **Project ID: 4180-03-00**

Shawano Avenue, City of Green Bay

Military Avenue – Ridge Road.

STH 29

Brown County

The Department is soliciting design engineering services to reconstruct 1.4 miles of urban STH 29 (Shawano Ave) in the City of Green Bay, Brown County. The scope of this project will be to complete preliminary engineering and final design. The work includes: agency coordination, preparation of reports and development of plans, specifications, and engineer estimate ready for letting.

## NOVEMBER 2001 DESIGN ENGINEERING AND RELATED SERVICES SOLICITATION

---

### TRANSPORTATION DISTRICT 6

#### Scope of Service Narratives:

##### **D6 1A**

**Project ID: 1020-09-20**

IH 94

Hudson – Menomonie Road

USH 63 Intersection

St. Croix County

**General** – Approximately 12 parcels with a variety of land & land interests will be required for the project.

**Scope of services** – Consultant shall perform real estate services including preparing a relocation plan, parcel appraisal and negotiations, and to acquire land and utility parcels for this highway project.

Estimated construction cost – N/A

Project let schedule is anticipated for FY 2003

District Contact is Al Holmstrom – 715.836.2856

##### **D6 1B**

**Project ID: 7080-03-02**

USH 12, Village of Fall Creek

Freedom Street – Plum Street

Eau Claire County

**General-** This segment of USH 12 requires local cost participation from the Village of Fall Creek. As part of the project, the Village will rehabilitate or reconstruct their sanitary sewer and water utilities. Village utility design work will not be included in the WisDOT design engineering services contract.

Execution of the WisDOT design engineering services contract and funding of the project is contingent upon the Village of Fall Creek executing a Municipal Agreement, with WisDOT, for the highway improvement project.

District 6 has a digital terrain model available for design purposes.

**Scope of Services** - Full service design, including right-of-way plat development and real estate acquisition services if necessary.
